SUMMARY

I am a self-taught Front-End Developer specializing in building responsive web applications. Currently, I serve as a UI Developer for Maxpro Technologies Private Limited, where I leverage my skills in creating intuitive and user-friendly interfaces. My passion for continuous learning and adapting to new technologies enables me to deliver high-quality solutions that meet and exceed client expectations.

EXPERIENCE

UI Developer

Maxpro Technologies Private Limited

December 2021 - Present, Tamil Nadu, Chennai

- I embraced the opportunity to contribute to over 15 projects, and I would like to highlight a few of them below.
- I developed the User Interface for the Midigi Learner platform and created intuitive Admin and Tutor Dashboards using HTML, CSS, JavaScript, Bootstrap, jQuery, and Radzen Blazor.
- I crafted the Admin Dashboard for the TamilNadu Farmer Producer Organizations (FPO) with HTML, CSS, JavaScript, Bootstrap, jQuery, and Radzen Blazor.
- I also revamped the eCommerce website for Indiashoppe using an eCommerce template, customizing it according to the client's needs.
- I also developed a dedicated mobile-responsive UI for the Morolife project using HTML, CSS, JavaScript, Bootstrap, jQuery, and jQuery plugins.
- I expertly designed the User Interface for NCC Codification and NCC Formworks, employing HTML, CSS, JavaScript, Bootstrap, jQuery, and Radzen Blazor technologies to create seamless and intuitive experiences.
- I built the Admin Dashboard UI for Shrinithi Insurance Broking Private Limited using HTML, CSS, and Mudblazor.
- I developed Email Templates for Shrinithi Capital, Nagarjuna Construction Company (NCC), and Zoomlo.
